ADDITIONAL INFORMATION

Directions from the airport Milan-Bergamo Orio al Serio (CA 2 HOURS 15 MIN.)

From Bergamo Orio al Serio airport, take the motorway towards Milan. Be careful in the beginning, because close to the airport there are a few connecting freeways to the main highway, the signs are very short and have short downhill roads. In addition, pay attention to the second intersection in a giant roundabout because you will come from the right in the roundabout and have to go on the left crossing 2 lanes, where the cars go pretty fast. In Milan you have to be patient because you have to drive around the city in the north, then turn towards Varese-Gravellona Toce, and after about 10Km exit towards Como-Chiasso.

TIP: at the highway paying stations use the track "Viacard" and pay by credit card, you often save a lot of time while traffic jams.
